Open for tours
June-September

Pick your own
berries: starts
mid to late June

Hops Harvestour:
last Saturday in
August

A WIRELESS HOPSPOT

Nestled along the Pipestem Creek, Ostlie's Sunnyside Acres lies 9 miles south of Carrington. Bring your family to explore nature's diversity, or just come for the hops.

Let your troubles roll by as you experience mother earth with all your senses. Smell the lupulin that gives beer its bitter flavor, taste the sweet haskap berries, see the display of colors in our pollinator planting, and feel at peace in the outdoors.

A remodeled vintage granary provides a landing zone for visitors, with a modern restroom and farm store/art studio. Starting late summer 2017 we plan to offer smoothies, crepes, and hops processing for other growers on the premises.

If you are more of a beer sipper than granola eater our annual Hops Harvestour gets bigger and better every year and we invite you and your family to join our band of misfits for a day of fun!

For the best possible experience, appointments are recommended. Call 701-285-3344 or contact us online to set up a visit.
